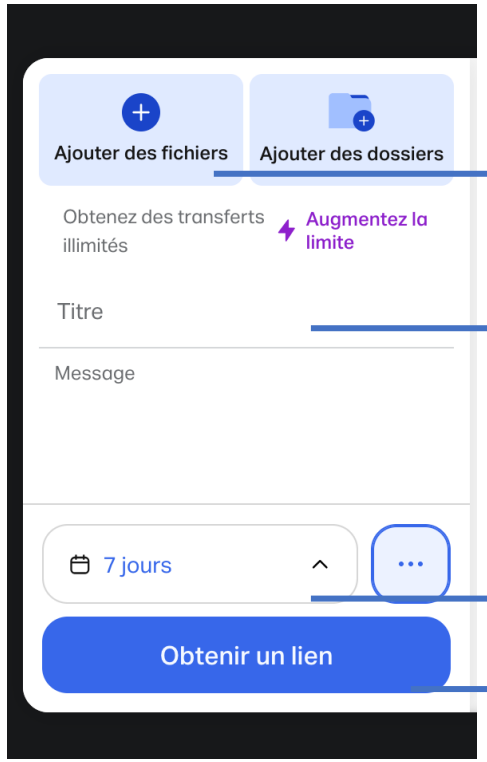
Contract Images Guidelines

November 2026

Please use https://wetransfer.com/ to send your images:



Add your files – *please follow the guidelines on the next slide*

Title: Name – Project number – Grant year

Change the link duration from 3 to 7 days

Get the link, and send it to: julia@saveourseas.com, with sandrine@saveourseas.com in cc

When adding your files:

All files must be labelled clearly. The file name should be:
Project leader's name – grant year - photographer credit - species name (common & scientific)

If you'd like to add a longer caption as well, please include it in the file name of the image, after the species name(s).

If the caption is too long for the file name, please send it via email *(julia@saveourseas.com, cc sandrine@saveourseas.com)* in a Word document listing each caption alongside the file name of the image it refers to.

Captions sent in any other way unfortunately cannot be used.
